25X1

1. The Naval School at Gdynia is being divided into two independent schools. The Engineering School, with courses for masters, mechanics and w/t operators, remains in Gdynia. The Navigation school is being transferred to Szczecin (Stettin); it will be headed by Capt. Maciejewicz, former CO of the training ships "Lwow" and "Dar Pomorza".

25X1

2. Transportation on the Odra (Oder) River [redacted] was as follows:

25X1

- a. From Silesia to Szczecin - 18,000 tons, mostly coal and coke,  
b. From Szczecin to Silesia - 6,300 tons,  
c. Transshipments at Szczecin river port - 24,300 tons.

3. The Reconstruction Bureau of the Port of Gdynia has commenced work on the breaking up of the battleship "Gneise", which lies in the Gdynia harbor. The metal obtained from the superstructure of the ship, which is above water, will amount to approximately 12,000 tons and will be used as scrap iron. The hull, which is completely submerged, will be reinforced with concrete and utilized as part of the port breakwater.
